Atlas Air Worldwide Reports Strong Third-Quarter Results

- Quarterly Revenue Exceeded \$1.0 Billion
- Reported Net Income Increased to \$119.5 Million
- Adjusted EBITDA Grew to \$280.5 Million
- Adjusted Net Income Increased to \$145.4 Million
- Expect Record Fourth Quarter

PURCHASE, NY, November 3, 2021 – Atlas Air Worldwide Holdings, Inc. (Nasdaq: AAWW) today announced strong third-quarter 2021 results, including net income of \$119.5 million, or \$3.91 per diluted share, compared with net income of \$74.1 million, or \$2.78 per diluted share, in the third quarter of 2020.

On an adjusted basis, EBITDA grew sharply to \$280.5 million in the third quarter this year compared with \$196.3 million in the third quarter of 2020. Adjusted net income in the third quarter of 2021 increased to \$145.4 million, or \$4.88 per diluted share, compared with \$82.7 million, or \$2.84 per diluted share, in the third quarter of 2020.

"We delivered outstanding financial and operating results in the third quarter. We flew over 90,000 block hours and generated quarterly revenue that exceeded \$1.0 billion for the first time in our company's history," said Atlas Air Worldwide President and Chief Executive Officer John W. Dietrich.

"Our strategic focus on express, e-commerce and fast-growing global markets is driving robust demand for our services and producing strong financial performance. In a very challenging pandemic operating environment, our team pulled together to increase utilization of our aircraft, and safely serve our customers and the global supply chain.

"We recently announced long-term contract extensions for 20 aircraft with DHL Express as well as a new long-term ACMI agreement with FedEx. We have also extended or entered into other new long-term agreements with additional strategic customers. Collectively, these agreements

demonstrate our ability to capitalize on market opportunities and deepen long-standing relationships with our customers.

"As we served the needs of our customers and their businesses, we were also extremely proud to support the U.S. government's historic evacuation from Afghanistan. In total, we operated over 30 missions, transporting about 10,000 U.S. personnel as well as Afghan evacuees and their families from various locations into the United States."

Mr. Dietrich added: "At Atlas, our people are our greatest asset, and we are pleased to have reached a new five-year joint collective bargaining agreement with our pilots. Under this agreement, all of our pilots will receive higher pay, quality of life improvements and enhanced benefits in line with our competitive landscape. We look forward to continuing to work collaboratively with our pilots and their new union leadership to build an even stronger company.

"We are operating in a very strong airfreight market, and we expect industry conditions to remain favorable for the foreseeable future. Global airfreight volumes continue to exceed pre-pandemic levels, while industry capacity, particularly on long-haul international routes, has not kept pace with demand. Supply chain bottlenecks, including the widely reported challenges at ocean ports worldwide, are driving increased modal shift to air as manufacturers, retailers and shippers strive to replenish very low inventory levels, especially ahead of the holiday shopping season. This current environment has also led to a structural acceleration of express growth and e-commerce adoption, which will drive both current and longer-term airfreight demand."

He concluded: "We expect record revenue and adjusted earnings in the fourth quarter of 2021, with revenue of nearly \$1.1 billion and adjusted EBITDA of about \$325 million. We also anticipate adjusted net income to grow in excess of 20% compared with our prior fourth-quarter adjusted net income record of \$143.2 million in 2020.*

"This outlook includes the impact of our new joint collective bargaining agreement and our proactive initiatives to help mitigate the higher costs of the new agreement. It also reflects the increased contribution of numerous new and extended long-term customer agreements, high levels of aircraft utilization driven by strong customer demand, and solid peak-season volumes and yields."

Third-Quarter Results

Volumes in the third quarter of 2021 totaled 90,363 block hours compared with 90,528 in the third quarter of 2020, with revenue rising to a record \$1.02 billion compared with \$809.9 million in the prior-year quarter.

Higher Airline Operations revenue primarily reflected an increase in the average rate per block hour. The higher average rate per block hour was primarily due to an increased proportion of higher-yielding flying, including the impact of new and extended long-term contracts, the ongoing reduction of available cargo capacity in the market, the continued disruption of global supply chains due to the pandemic, as well as higher fuel costs. Block-hour volumes during the period were relatively unchanged as we reduced less profitable smaller gauge CMI service flying, while increasing utilization of our current fleet to meet strong customer demand. Block-hour volumes benefited from the operation of a 747-400 freighter we reactivated during the fourth quarter of 2020 as well as increased AMC passenger Charter flying related to Afghanistan evacuation efforts in 2021.

Higher Airline Operations segment contribution in the third quarter of 2021 was primarily driven by the positive factors benefiting segment revenue mentioned above as well as lower heavy maintenance expense. These improvements were partially offset by higher pilot costs related to our new joint collective bargaining agreement (JCBA).

In Dry Leasing, segment revenue in the third quarter of 2021 was relatively unchanged compared with the prior-year period. Higher segment contribution was primarily due to lower interest expense related to the scheduled repayment of debt.

Unallocated income and expenses, net, increased during the quarter, primarily due to \$64.2 million in CARES Act grant income in 2020 (which was excluded from our adjusted results) and a \$15.2 million increase related to adjustments to paid time-off benefits in our new JCBA in 2021.

Reported earnings in the third quarter of 2021 also included an effective income tax rate of 23.4%. On an adjusted basis, our results reflected an effective income tax rate of 22.3%.

Cash

At September 30, 2021, our cash, including cash equivalents and restricted cash, totaled \$784.1 million compared with \$856.3 million at December 31, 2020.

The change in position, which reflects significant pre-delivery payments for our new 747-8F aircraft, resulted from cash used for investing and financing activities, partially offset by cash provided by operating activities.

Net cash used for investing activities during the first nine months of 2021 primarily related to capital expenditures and payments for flight equipment and modifications, including pre-delivery payments for 747-8F aircraft, spare engines, GEnx engine overhauls and performance upgrade kits.

Net cash used for financing activities during the period primarily related to payments on debt obligations, partially offset by proceeds from debt issuance.

Nine-Month Results

Reported results for the nine months ended September 30, 2021 increased to net income of \$316.6 million, or \$10.52 per diluted share. Results compared with net income of \$176.3 million, or \$6.72 per diluted share, which included an unrealized loss on financial instruments of \$73.4 million, for the nine months ended September 30, 2020.

On an adjusted basis, EBITDA grew to \$705.6 million in the first nine months of 2021 compared with \$564.5 million in the first nine months of 2020. For the nine months ended September 30, 2021, adjusted net income increased to \$339.4 million, or \$11.44 per diluted share, compared with \$235.8 million, or \$8.71 per diluted share, in the first nine months of 2020.

Fleet Management

As previously announced, we acquired three of our existing 747-400Fs between May and August 2021 that were formerly on lease to us. In October 2021, we acquired three additional 747-400Fs that were previously leased to us. We also reached agreement with lessors in May and June 2021

to purchase five of our other 747-400Fs at the end of their existing lease terms, which occur throughout 2022.

Acquiring these eleven aircraft underscores our confidence in the demand for widebody freighters and will provide strong returns for Atlas in the years ahead.

Labor

As previously disclosed, we reached a new five-year JCBA with our Atlas Air and Southern Air pilots in September 2021. This new agreement will provide our pilots with industry-competitive pay, quality of life improvements and enhanced benefits. The new pay rates became effective as of September 1, 2021. The company and the union are working collaboratively to implement all of the other terms of the JCBA in the coming months. The new JCBA also paves the way for us to complete the merger between Atlas Air and Southern Air, which we expect to occur during the fourth quarter.

Outlook*

We are very proud of our performance during the first nine months of 2021, and we are continuing to see strong business conditions in the fourth quarter. Subject to any material COVID-19 or other developments, we anticipate solid peak-season volumes and yields, reflecting strong global demand for our aircraft and services.

As a result, we expect the fourth quarter of 2021 to have the highest quarterly revenue and adjusted earnings in the company's history, with revenue of nearly \$1.1 billion and adjusted EBITDA of about \$325 million from flying more than 90,000 block hours. In addition, we anticipate adjusted net income to grow in excess of 20% compared with our prior fourth-quarter adjusted net income record of \$143.2 million in 2020.*

This outlook includes the impact of our new JCBA, as well as our proactive initiatives to help mitigate the higher costs from the new agreement. It also reflects the increased contribution of numerous new and extended long-term customer agreements, as well as our expectation of continued high levels of aircraft utilization.

We expect fourth-quarter results to continue to be impacted by ongoing pandemic-related expenses, including premium pay for employees flying into certain locations significantly impacted by COVID-19 and other operational costs for providing a safe working environment for our employees.

For the full year in 2021, we expect aircraft maintenance expense to total approximately \$450 million, and depreciation and amortization to total about \$280 million. In addition, core capital expenditures, which exclude aircraft and engine purchases, are projected to total approximately \$90 to \$100 million, mainly for parts and components for our fleet.

Other than with regard to revenue, we provide guidance only on an adjusted basis because we are unable to predict, with reasonable certainty and without unreasonable effort, the effects of future gains and losses on asset sales, special charges and other unanticipated items that could be material to our reported results.*

Conference Call

As previously announced, management will host a conference call to discuss Atlas Air Worldwide's third-quarter 2021 financial and operating results at 11:00 a.m. Eastern Time on Wednesday, November 3, 2021.

Interested parties may listen to the call live at Atlas Air Worldwide's <u>Investor</u> site or at <u>https://edge.media-server.com/mmc/p/gtuvu4m3</u>.

For those unable to listen to the live call, a replay will be archived on our <u>Investor</u> site following the call. A replay will also be available through November 10 by dialing (855) 859-2056 (U.S. Toll Free) or (404) 537-3406 (from outside the U.S.) and using Access Code 4879270#.

About Non-GAAP Financial Measures

To supplement our financial statements presented in accordance with U.S. GAAP, we present certain non-GAAP financial measures to assist in the evaluation of our business performance. These non-GAAP measures include Adjusted EBITDA; Adjusted net income; Adjusted Diluted EPS; Adjusted effective tax rate; and Free Cash Flow, which exclude certain noncash income and expenses, and items impacting year-over-year comparisons of our results. These non-GAAP measures may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for Net income; Diluted EPS; Effective tax rate; and Net Cash Provided by Operating Activities, which are the most directly comparable measures of performance prepared in accordance with U.S. GAAP, respectively.

Our management uses these non-GAAP financial measures in assessing the performance of the company's ongoing operations and in planning and forecasting future periods. We believe that these adjusted measures, when considered together with the corresponding U.S. GAAP financial measures and the reconciliations to those measures, provide meaningful supplemental information to assist investors and analysts in understanding our financial results and assessing our prospects for future performance. For example:

- Adjusted EBITDA; Adjusted net income; and Adjusted Diluted EPS provide a more comparable basis to analyze operating results and earnings and are measures commonly used by shareholders to measure our performance. In addition, management's incentive compensation is determined, in part, by using Adjusted EBITDA and Adjusted net income.
- Adjusted effective tax rate provides insight into the tax effects of our ongoing business operations.
- Free Cash Flow helps investors assess our ability, over the long term, to create value for our shareholders as it represents cash available to execute our capital allocation strategy.

*Other than with regard to revenue, we provide guidance only on an adjusted basis and are unable to provide forward-looking guidance on a U.S. GAAP basis or a reconciliation to the most directly comparable U.S. GAAP measures because we are unable to predict with reasonable certainty and without unreasonable effort, the ultimate outcome of certain significant items, including future gains and losses on asset sales, special charges and other unanticipated items. These items are uncertain, depend on various factors, and could have a material impact on our U.S. GAAP results.

About Atlas Air Worldwide:

Atlas Air Worldwide is a leading global provider of outsourced aircraft and aviation operating services. It is the parent company of Atlas Air, Inc., Southern Air Holdings, Inc. and Titan Aviation Holdings, Inc., and is the majority shareholder of Polar Air Cargo Worldwide, Inc. Our companies operate the world's largest fleet of 747 freighter aircraft and provide customers the broadest array of Boeing 747, 777, 767 and 737 aircraft for domestic, regional and international cargo and passenger operations.

Atlas Air Worldwide's press releases, SEC filings and other information may be accessed through the company's home page, www.atlasairworldwide.com.

This release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect Atlas Air Worldwide's current views with respect to certain current and future events and financial performance. Those statements are based on management's beliefs, plans, expectations and assumptions, and on information currently available to management. Generally, the words "will," "may," "should," "expect," "anticipate," "intend," "plan," "continue," "believe," "seek," "project," "estimate," and similar expressions used in this release that do not relate to historical facts are intended to identify forward-looking statements.

Such forward-looking statements speak only as of the date of this release. They are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the operations and business environments of Atlas Air Worldwide and its subsidiaries (collectively, the "companies") that may cause the actual results of the companies to be materially different from any future results, express or implied, in such forward-looking statements.

Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: our ability to effectively operate the network service contemplated by our agreements with Amazon; our ability to coordinate with Amazon to accept newly converted aircraft; the possibility that Amazon may terminate its agreements with the companies; the ability of the companies to operate pursuant to the terms of their financing facilities; the ability of the companies to obtain and maintain normal terms with vendors and service providers; the companies' ability to maintain contracts that are critical to their operations; the ability of the companies to fund and execute their business plan; the ability of the companies to attract, motivate and/or retain key executives, pilots and associates; the ability of the companies to attract and retain customers; the continued availability of our wide-body aircraft; demand for cargo services in the markets in which the companies operate; changes in U.S. and non-U.S. government trade and tax policies; economic conditions; the impact of geographical events or health epidemics such as the COVID-19 pandemic; the impact of COVID-19 vaccine mandates; our compliance with the requirements and restrictions under the Payroll Support Program; the effects of any hostilities or act of war (in the Middle East or elsewhere) or any terrorist attack; significant data breach or disruption of our information technology systems; labor costs and relations, work stoppages and service slowdowns; the outcome of pending negotiations and arbitration with our pilots' union; financing costs; the cost and availability of war risk insurance; aviation fuel costs; security-related costs; competitive pressures on pricing (especially from lower-cost competitors); volatility in the international currency markets; weather conditions; government legislation and regulation; border restrictions; consumer perceptions of the companies' products and services; anticipated and future litigation; and other risks and uncertainties set forth from time to time in Atlas Air Worldwide's reports to the United States Securities and Exchange Commission.

For additional information, we refer you to the risk factors set forth under the heading "Risk Factors" in the most recent Annual Report on Form 10-K and subsequent reports on Form 10-Q filed by Atlas Air Worldwide with the Securities and Exchange Commission. Other factors and assumptions not identified above may also affect the forward-looking statements, and these other factors and assumptions may also cause actual results to differ materially from those discussed.

Except as stated in this release, Atlas Air Worldwide is not providing guidance or estimates regarding its anticipated business and financial performance for 2021 or thereafter.

Atlas Air Worldwide assumes no obligation to update such statements contained in this release to reflect actual results, changes in assumptions or changes in other factors affecting such estimates other than as required by law and expressly disclaims any obligation to revise or update publicly any forward-looking statement to reflect future events or circumstances.

Atlas Air Worldwide uses an economic performance metric, Direct Contribution, to show the profitability of each of its segments after allocation of direct operating and ownership costs. Atlas Air Worldwide currently has the following reportable segments: Airline Operations and Dry Leasing.

Direct Contribution consists of income (loss) before taxes, excluding loss on early extinguishment of debt, unrealized loss on financial instruments, special charge, transaction-related expenses, loss (gain) on disposal of aircraft, nonrecurring items, and unallocated expenses and (income), net.

Direct operating and ownership costs include crew costs, maintenance, fuel, ground operations, sales costs, aircraft rent, interest expense on the portion of debt used for financing aircraft, interest income on debt securities, and aircraft depreciation.

Unallocated expenses and (income), net include corporate overhead, nonaircraft depreciation, noncash expenses and income, interest expense on the portion of debt used for general corporate purposes, interest income on nondebt securities, capitalized interest, foreign exchange gains and losses, other revenue, other nonoperating costs and CARES Act grant income.
