This presentation contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect Atlas Air Worldwide Holdings, Inc.'s (AAWW) current views with respect to certain current and future events and financial performance. Such forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the operations and business environments of AAWW and its subsidiaries that may cause actual results to be materially different from any future results, express or implied, in such forward-looking statements.

For additional information, we refer you to the risk factors set forth in the documents filed by AAWW with the Securities and Exchange Commission. Other factors and assumptions not identified above are also involved in the preparation of forward-looking statements, and the failure of such other factors and assumptions to be realized may also cause actual results to differ materially from those discussed.

AAWW assumes no obligation to update the statements in this presentation to reflect actual results, changes in assumptions, or changes in other factors affecting such estimates, other than as required by law.

This presentation also includes some non-GAAP financial measures. You can find our presentations on the most directly comparable GAAP financial measures calculated in accordance with accounting principles generally accepted in the United States and our reconciliations in the appendix and our earnings releases dated February 19, 2019, which are posted on our website at <u>www.atlasairworldwide.com</u>.

Shaping a Powerful Future

Global leader in outsourced aviation

Opportunities to grow with existing customers and with new ones

Era of significant business growth and development Strong foundation for earnings and cash flow

Record volumes and earnings expected in 2019

Focus on **express**, **e-commerce**, **fast-growing markets** **Capitalizing on initiatives** to drive value and benefit for customers and investors

Strong Financial and Operating Performance

In 2018, we continued to deliver record volumes, record revenue and robust earnings growth, reflecting key multiyear strategic initiatives that have transformed our company and created significant shareholder value

Performance Highlights									
Strategic Initiatives	2018 Financial Highlights								
 Capitalizing on our strong market position and our focus on express, e-commerce and fast-growing global markets Our growth and development reflect expansions with long-standing customers, contributions and synergies from our 	Volumes increased 17% to 296,264 block hours								
move into 777 and 737 operations through Southern Air, and key new customer agreements	Revenue grew 24% to \$2.7 billion								
Business Growth									
 In 2018, placed and began operating eight additional 767 aircraft for Amazon 	Adjusted EBITDA* rose 26% to \$540.6 million								
 Placed and began operating 20 Amazon aircraft in line with schedule announced in 2016 	Adjusted income from continuing operations,								
 Acquired two 777 freighters and added five leased 747 freighters to meet increased customer demand 	net of taxes* grew 53% to \$204.3 million, or \$7.27 per diluted share								

2019 Framework

Revenue/Earnings

- Revenue
 ~\$3 billion
- Adj. EBITDA ~\$600 million

Adj. Net Income to grow by a mid- to upper-single-digit percentage compared with 2018

Block Hours

- ~340,000
- Over 75% of total in ACMI
- Balance in Charter

1Q19 Outlook

- Block hours ~75,000
- Revenue
 ~\$680 million
- Adj. EBITDA ~\$110 million

Adj. net income similar to 1Q18

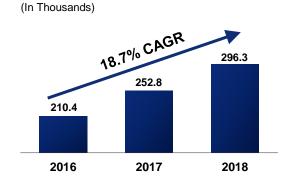

Other 2019 Key Items

- Maint Exp ~\$420 million
- Depr/Amort ~\$260 million
- Core Capex ~\$135-145 million

2019 Objectives

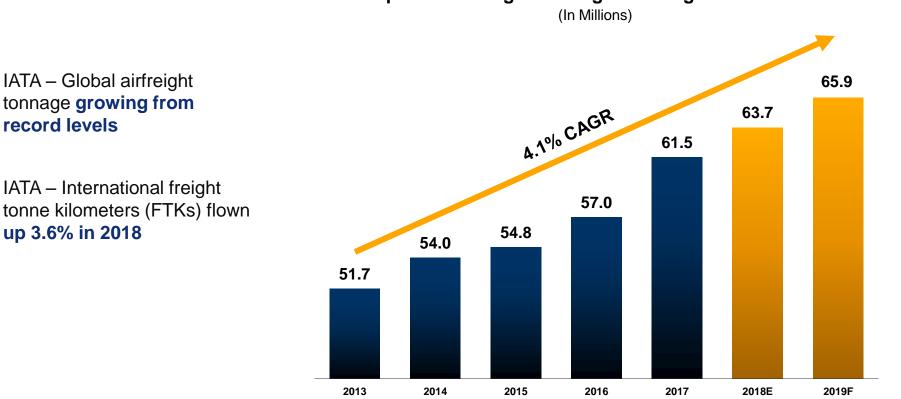

- Deliver superior service quality
- Committed to safe, secure, compliant operation
- Achieve earnings goals
- Maximize business opportunities
- Capitalize on 2018 fleet growth
- Realize continuous improvement
- Maintain solid balance sheet

Continued Growth and Innovation

International Global Airfreight – Annual Growth

IATA Reported Airfreight Tonnage Growing from Record Levels

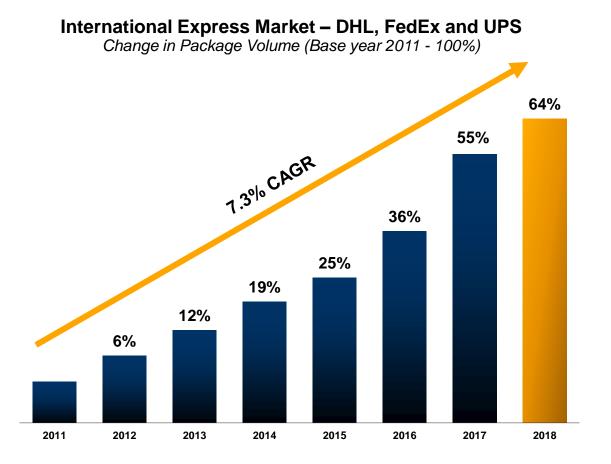

ATLAS AIR WORLDWIDE

The Key Underlying Express Market Is Growing

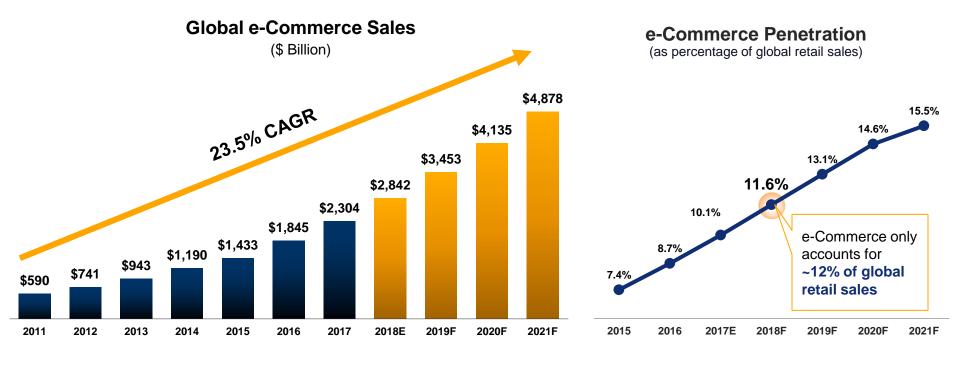

The International Express market is **showing** robust growth

7.3% CAGR since 2011, well above the pace of general airfreight

Notes: Weighted average of growth rates in international express package volume reported by these express operators Weighting is 50% DHL, 25% UPS and 25% FedEx. 2016-2017 FedEx reported data reflects beneficial impact of TNT acquisition e-Commerce Growth

USA 237M internet users 73% mobile penetration 9% e-Commerce penetration

China 700M internet users 50% mobile penetration 10% e-Commerce penetration

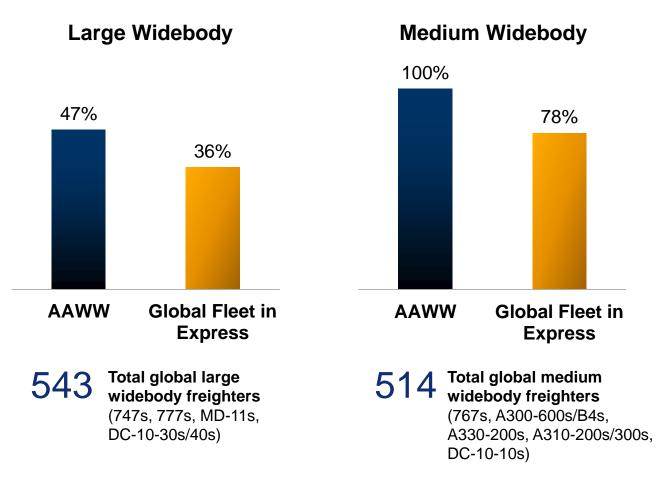

India 300M internet users 25% mobile penetration 2% e-Commerce penetration

Fleet Aligned with Express and e-Commerce

Atlas Fleet in Express/ e-Commerce Compared with Global Fleet

Amazon Service

Agreement provides for **future growth opportunities**

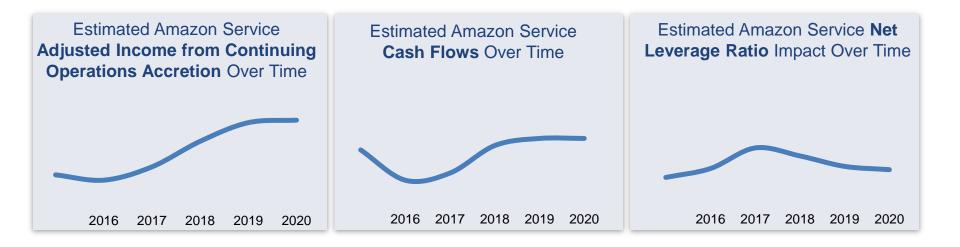

10-year dry leases, 7- to 10-year CMI

Adjusted Income from Continuing Operations and Cash Flow contributions to ramp up as aircraft enter service for Amazon

Net Leverage Ratio to increase initially, then decrease over time

A Strong Leader in a Vital Industry

The Industry

Airfreight is vital to global trade growth

~\$7.0 trillion of goods airfreighted annually; ~35% of total world trade

Higher-growth e-Commerce and express markets demand dedicated freighter services

High-value, time-sensitive inventories demand airfreight-based supply chain

Airfreight provides a compelling value proposition

Atlas

Modern, reliable, fuel-efficient fleet

Differentiated fleet solutions: 747, 777, 767, 757, 737

Strong portfolio of long-term customers committed to further expansion

Operating on five continents

Serving the entire air cargo supply chain

Unique integrated value proposition

High degree of customer collaboration

Focused on innovation and thought leadership

Appendix

- We manage diverse, complex and time-definite global networks
- We deliver superior performance and value-added solutions across our business segments
- We manage a world-class fleet to service multiple market segments
- We are strategically positioned in a strengthening market and focused on new opportunities to continue to deliver future growth

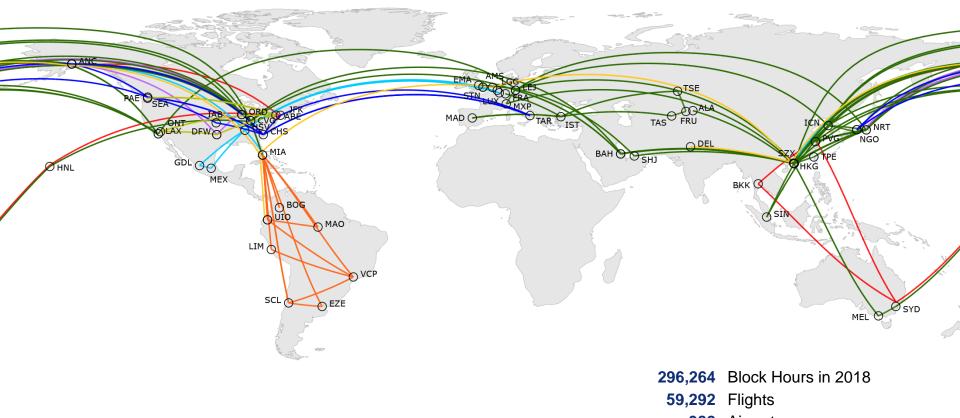

Our Vision To be our customers' most trusted partner

Our Mission To leverage our core competencies and organizational capabilities

Global Operating Network

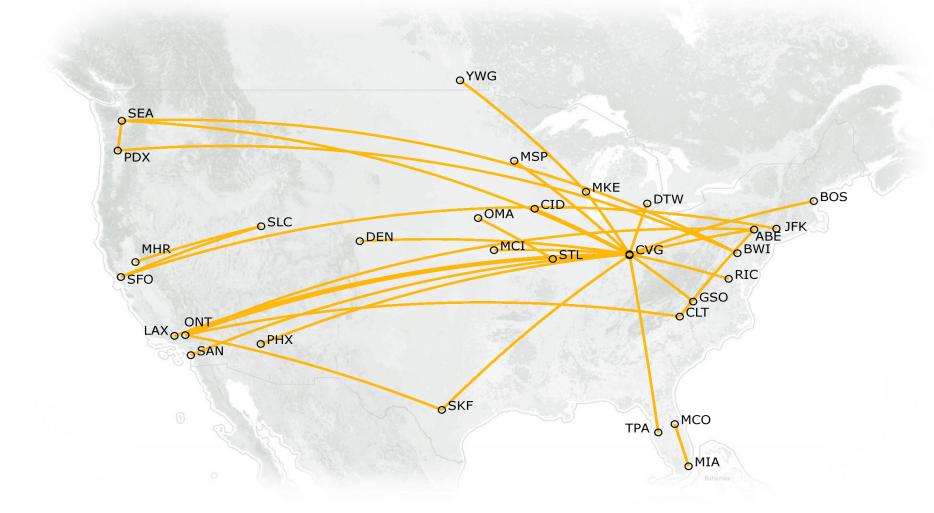

- 382 Airports
 - 89 Countries

17145

North America Operating Network

ATLAS

Global Airfreight Drivers

Market Size

Airfreight share: 1.5-2.5% global volume, 35% global value

Products

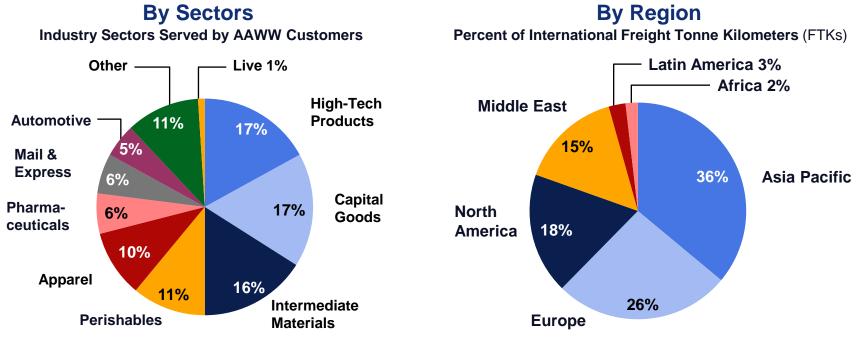

High-value, time-sensitive items; items with short shelf lives

Strategic Choice

Products/supply chains with just-in-time delivery requirements

Specialty Consideration

Products with significant security considerations

Delivering a Strong Value Proposition

Traditional Airfreight

- Growing ~4% through 2035
- Airfreight: 35% of the value of world trade
- Airlines seeking more efficient and flexible freighter solutions

Express

- Strong growth with ~7.3% CAGR
- Segment fueled by strong e-Commerce growth
- Express carriers require incremental and flexible asset solutions

e-Commerce

- Market growing by >20%
- Very low penetration globally
- Requires dedicated freighter networks

Multiple... products markets fleet

> Atlas Air positioned to deliver value and growth

Tailoring Airfreight Networks for e-Commerce

Customers require tailored solutions, and Atlas provides:

- Customized air networks supported by an unparalleled range of freighters
- Global scale to operate domestic, regional and international networks

We match each customer with the **right assets**, the **most efficient networks** and **value-adding solutions**

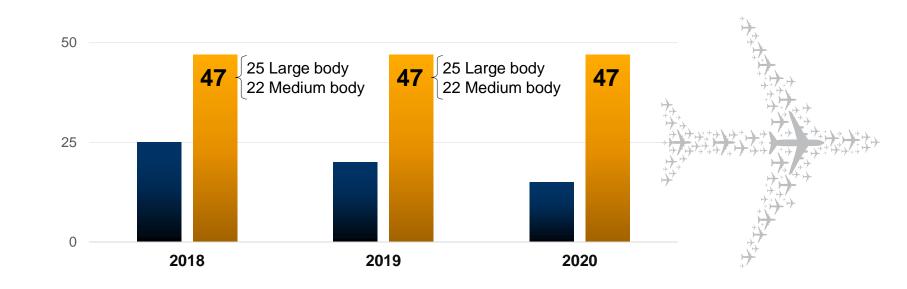

Demand Exceeding Current Orders

- Current Orders
- New Large Freighters Needed (at ~4% growth)

980 new production freighters needed over next 19 years (2018 – 2037)

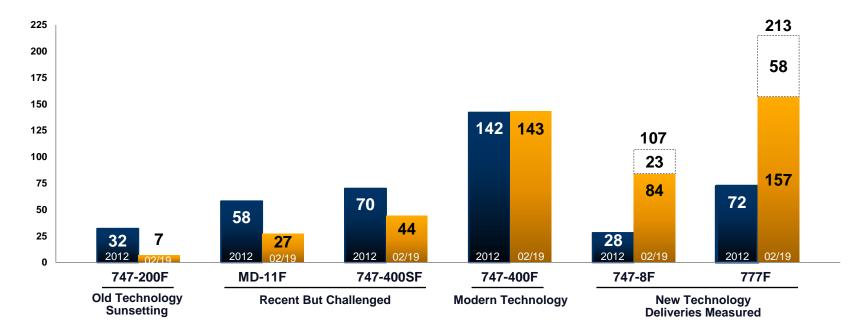

Large Freighter Supply Trends

- Fleet expected to grow <1% annually; forecast long-term demand growth of ~4%</p>
- Older technology is nearly gone
- MD-11F and 747-400 converted freighter fleets are shrinking
- Large wide-body freighters will continue to dominate the major trade lanes
- Belly capacity cannot displace freighters

Source: Atlas (February 2019), Ascend (February 2019), Boeing (February 2019), company reports. Excludes parked aircraft, aircraft in Express operations, combis and tankers; 747-200F total includes -100s and -300s. Boeing February 2019 777F total includes 53 with express operators (37 with FedEx, 10 with AeroLogic/DHL, and 6 for DHL Express).

Main Deck to Belly?

70%

Key Considerations

- 10% shift of Trans-Pac market from main deck to Pax belly requires 50 incremental aircraft
- Limitations on slot and route availability; not enough passenger demand; limited access to aircraft
- Global average capacity availability on a 777-300ER is 18-20 tonnes*
- New Pax 787s fly point-to-point, e.g. London to Phoenix; good for passengers, not cargo

60% 50% 40% 30% 20% 10% 0% 2009 2010 2011 2012 2013 2014 2015 2016 2017 2037

Dedicated freighters will continue to carry more than half of air cargo traffic

Percentage of World RTKs Carried on Freighters

2019 Maintenance Expense

- Line maintenance expense increases commensurate with additional block hour flying
- Line maintenance expense is approximately \$824 per block hour
- Non-heavy maintenance includes discrete events such as APU, thrust reverser, and landing gear overhauls

Reconciliation to Non-GAAP Measures

(In \$Millions)	1Q17	2Q17	3Q17	4Q17	1Q18	2Q18	3Q18	4Q18
