

OUR COMMITMENT TO CORPORATE RESPONSIBILITY

Caring for the World We Carry

Atlas Air Worldwide is *caring for the world we carry* by minimizing our environmental impact, developing solutions that add value and efficiency for our customers, and putting safety and our people first. Our environmental, social and governance (ESG) vision is to be an air cargo industry leader and partner with our stakeholders to foster economic, environmental and social progress.

COMPANY AT A GLANCE

4,000+ employees
300+ destinations
70+ countries

ESG in Action

Our ESG journey began with our founding in 1992, and is rooted in our core values, including our unyielding commitment to care for each other, our planet and our communities. Our strategy is built around four pillars:

Environmental Stewardship

Career, Culture & Equity for Our People

Social Impact & Community Engagement

Responsible Business Growth

Scope 1 (Direct) emissions reduction goal of
↓ 20% by 2035

Converting **50%** of our gas-powered service equipment and fleet to electric by 2030

73% of current Directors and **75%** of current Senior Managers were promoted from within over the past 10 years

10,000+ passengers on **31** flights in support of U.S. military's Afghanistan evacuation efforts

Securing the **future of aviation** by supporting **scholarships and educational programs** tied to our industry

40% gender diversity and **30%** racial/ethnic diversity on our Board of Directors

Leadership in key initiatives to facilitate **SAF production** regionally and nationally
